IMMUNITY, DISEASE & VACCINATION

(PART ONE IN SERIES)

By: *Raymond Obomsawin* Ph.D.

May 17, 2021

“When the tide is receding from the beach it is easy to have the illusion that one can empty the ocean by removing water with a pail.”

Rene Dubos
in **Mirage of Health**

ALLOPATHIC MEDICINE LEGACY?

ANCIENT RELIGIOUS CULTS

“Modern” allopathic medicine has ancient religious cult origins. The “Rx” symbol originates in the Eye of Horus (son of Isis & Osiris) the Egyptian “*God of War*” & the “*Father of Pharmacy*”.

Origin of “Pharmacy” In Ancient Greek Legend *Pharmaceia* Evil Spirit Protector of a **Poisonous Spring**

TWO SYMBOLS WHICH TODAY REPRESENT THE ORIGINS OF MAINSTREAM MEDICINE

Two major segments of mainstream Allopathic (drug & vaccine-driven) Medicine employ symbolism directly tied to two (2) notable religious cults of Ancient Greece, which were dedicated to honoring & worshiping the “gods” Hermes & Aesculapius.

FOREBEARS OF A COUNTERFEIT HEALING SYSTEM

Today most *Allopathic Medicine* practitioners & associations trace their lineage back to Aesculapius, an ancient counterfeit Christ. He was son of the deified sun “god” & a mortal woman, so was both “god & man.” He is said to have healed the sick; raised the dead; was killed for being a merciful healer; & was resurrected as a “god.” His pole & serpent counterfeited the healing bronze serpent of Numbers 21:9, a prophetic symbol of Christ’s bearing the guilt of humanity & power to heal.

FOREBEARS OF A COUNTERFEIT HEALING SYSTEM

The wand of the ancient “god” Hermes is intertwined by two snakes copulating & topped by wings. Commercial medicine, the U.S. Army & most hospitals in the U.S. largely use this symbol. In sundry respects, he was also a counterfeit Christ. Venerated as “*son of the chief God*” (Zeus), he was deemed an “*emissary*” to humanity on behalf of his father & lesser gods; “*the good shepherd*”; the “*soul guide*” leading the dead to eternal life; “*intermediary*” between divinity & humanity; patron of “*alchemy*” (precursor to toxic chemical & metallurgical pharmacology); & protector of merchants, thieves & liars.

VACCINATION'S POSSIBLE ANCIENT ORIGINS

Some medical historians maintain the view that inoculation or variolation as a disease preventative originated in the sorcery of early Egyptian priest-physicians.

Ancient Egyptian magical potions & cures included: donkey dung; fish eyes; Nile river mud; camel's hair; & fly wings.

H. Bruno & B. Ziskind; Medicine in the Days of the Pharaohs; Cambridge, Mass. USA; Harvard University Press, 2005. & <http://www.reformation.org/vaccine.html>.

FROM SOUTH ASIA TO CHINA & EUROPE

Before 200 BC the practice was carried along trade routes north & east to India (alongside sacred cow worship) & much later to China.

Exploration records from the 1500s show that the Brahmins of India were variolating dried pus from smallpox postules to induce “immunity” as a regular practice.

Co-founder of the Jesuit Order, Francis Xavier (1506-1552) spent 10 yrs in India where it is claimed that he picked up this practice from Brahmin priests & later introduced it to limited areas of south Europe.

Goddess of
smallpox

DEVELOPMENTS IN THE UK

- ▶ Lady Montague wife of the British Ambassador to the Ottoman Empire upon returning to England, in 1722, widely promoted the practice of variolation (inoculation) for smallpox after having observed this practice among the Turks.

- ▶ Victims of variolation could be found at all levels of British society; King George III lost a son to the procedure, as did many others. ¹
- ▶ In 1840 - although variolation was endorsed by the Royal College of Physicians – it was condemned by an Act of Parliament as a criminal offense. ²

VACCINATION'S DEBUT

First “vaccination” - 1776 Ben Jesty used a stocking needle to transfer cowpox lesion pus to his wife’s arm, inserting it into her skin & then repeated this procedure on his two boys.

In Jenner’s first experiment, May 14, 1796 - he transferred cowpox pus from the hand of Sarah Nelmes to the arm of James Phipps.

DECEPTION & BETRAYAL OF ALL NATIONS

Pharmakeia - Koine Greek
“druggist” “poisoner” &
“sorcerer, the giver of potions
to produce magical effects”

2,000 years ago a Biblical
Prophet looked upon the
panorama of earth’s history
& solemnly warned that a
time would come when: “*Her
merchants ruled the earth, &
by her sorceries (Pharmakeia)
were all the nations deceived.*”
Revelation 18:23

**DID VACCINATION ACTUALLY ERADICATE
THE INFECTIOUS KILLER DISEASES OF THE
19TH & EARLY TO MID 20TH CENTURIES?**

DECEPTION PREVAILS

**HISTORICAL-BASED
FACTS FOLLOW**

19TH CENTURY SMALLPOX VACCINATION EFFICACY

- 1871 Bavaria – out of 30,742 cases 29,429 in vaccinated persons (95.7 percent)
- 1871 Prussia – highest re-vaccinated country in Europe - highest death rate from smallpox any northern European country(69,839)
- German army - all recruits re-vaccinated
- death-rate from smallpox was 60 percent higher than among the civil population of the same age, for whom re-vaccination is not mandatory
- Various European epidemics - Cologne in 1870 the first unvaccinated person attacked by smallpox was the 174th in order of time, at Bonn the same year the 42d, & at Liegnitz in 1871 the 225th

VACCINE SUCCESS IN THE UK?

Walter R. Hadwen M.D.

Since the passing of the UK Compulsory Vaccination Act of 1853, England experienced three successive major epidemics with each growing larger & larger. By the year 1871 - 97.5% had been vaccinated in England & it then went on to experience its largest & most deadly smallpox epidemic ever recorded, with 44,800 deaths.

Hadwen W; The Case Against Vaccination; Address – Gloucester, UK; Jan. 25th, 1896

CHALLENGES RAISED & UNANSWERED

- ▶ Smallpox is five times as likely to be fatal in the vaccinated as in the unvaccinated
- ▶ In highly vaccinated areas e.g. Bombay & Calcutta - smallpox is rife, while in minimally vaccinated areas, such as Leicester, it is almost unknown
- ▶ 80 percent of the smallpox cases admitted into the hospitals have been vaccinated, with 20 percent unvaccinated
- ▶ Germany - the best-vaccinated country in the world – has more smallpox deaths proportional to the population than England. In 1919, there were 28 deaths in England, compared with 707 In Germany

L. A. Parry; *Fatality Rates of Small-Pox in the Vaccinated & Unvaccinated*; British Medical Journal; Jan. 21, 1928; p. 116.
(<http://www.bmj.com/content/1/3498/116.1.full.pdf+html>)

VACCINE SUCCESS IN THE USA?

“We [were] never able to prove that vaccination saved [even] one man from smallpox.... I know of one epidemic of smallpox comprising nine hundred & some cases, in which 95 percent of the infected had been vaccinated, & most of them recently”

William Howard Hay M.D. 1936

Hay, William Howard; Address to the Medical Freedom Society on the Lemke Bill to Abolish Compulsory Vaccination; Pocono, PA USA; June 25, 1937.

WHO SMALLPOX ERADICATION?

- ▶ The WHO smallpox eradication campaign launched in 1966 played no actual role in reducing smallpox. ¹ In fact over 90 percent of children in developing countries were never vaccinated. ²
- ▶ Smallpox was actually eradicated by three (3) synergistic factors: Natural Attenuation; tied to Improved Social Determinants, particularly Nutrition & Sanitation; & lastly Isolation. ³

POLIO - MANIPULATION OF DIAGNOSIS & STATISTICS

In 1962 Bernard Greenberg, Chair - Committee on Evaluation & Standards APHA provided evidence to the U.S. congressional hearings on polio vaccination. He refuted the widespread claims that the Salk polio vaccine was effective.

In late 1955, many thousands of non-paralytic “*polio*” cases were re-labeled as Coxsackie virus & Aseptic Meningitis infections. This led to false & greatly exaggerated claims that the vaccine had caused this immediate “*huge decline*” in polio.

Despite greatly expanded vaccination in the late 1950s, 1957-58 experienced a 50% increase in paralytic polio, & 1958-59 an 80% increase in paralytic polio cases.

Hearings: CIFIC - House of Representatives, 87th Congress, 2nd Session on H.R. 10541, Wash DC: US Govt. Printing Office; 1962; p. 96-97.

NEUROTOXIC PESTICIDES & POLIO

Compelling epidemiological evidence links polio's rise & fall with the widespread usage & subsequent prohibition of neurotoxins, such as DDT, BHC, arsenic & lead-based pesticides. Organochlorine pesticides such as DDT are associated with nerve damage, paralysis & death. ¹

In spite of repeated vaccine-based “*eradication*” efforts, polio continued to persist in certain countries, e.g. in Tajikistan where DDT was still “*commonly sold at market places ...by women & children*” for farming. ² In the year 2010: Tajikistan had 458 cases of polio; Kirgizstan 0 cases; & Kazakhstan 1 case. ³

Polio Incidence And Pesticide Production In U.S. 1940-1970 (millions of pounds)

All production data is derived from U.S. Board of Transportation figures (Hayes and Laws, 1996) since it is illegal for government to divulge pesticide production figures to the public.

DDT production after 1954 was exported on a huge scale, thus DDT production directed towards U.S. after 1954 is estimated from National Adipose Tissue Study (from Hayes), and inferred from increasing dominance of organo-phosphate pesticides.

Polio data is from U.S. Vital Statistics.

Laboratory analyses (1958) showed "polio" to be a mix of CNS diseases: polio, encephalitis, meningitis, and acute flaccid paralysis (no microbe found).

— Polio x 7.75
- - - DDT, BHC, Arsenic, Lead (Persistent Pesticides)

VACCINES DIDN'T SAVE US

A large body of historical epidemiological data shows that major declines in virtually all of the major infectious diseases took place before the use of specific vaccines. Claims about the historical life-saving impact of vaccination programs are only a sales pitch fantasy & not factual.

Is Vaccine Induced “Immunity” Reliable & Genuine?

A mid-20th century British study investigated the relationship of the incidence of diphtheria to the presence of antibodies. It was observed that there was no observable correlation between the antibody count & the incidence of the disease.

“The researchers found people who were highly resistant with extremely low antibody count, & people who developed the disease who had high antibody counts.”

Burnet M; Auto Immunity & Auto Immune Disease; MTP Press, Lancaster, UK; 1973, Ch. 3

Is Vaccine Induced “Immunity” Reliable & Genuine?

A team of scientist writing in the NEJM provided evidence for the position that immunity to infectious disease is a broader bio-ecological question than the factors of vaccination or serology.

They summarily concluded: *“It is important to stress that immunity (or its absence) cannot be determined reliable on the basis of history of the disease, history of immunization, or even history of prior serologic determination.”*

Polk BF, et al.; An Outbreak of Rubella (German Measles) among Hospital Personnel, The New England Journal of Medicine, Vol. 303, No. 10, Sept. 4, 1980, pp. 541-545.

THEORY & REALITY

THEORY: B lymphocyte cell response to infectious agents are dependent on intelligence from Memory T cells which serve as “*helpers*” aiding in the recognition of the of intrusive pathogens by signaling to B cells to produce “*high affinity antibodies*”.

REALITY: University of Chicago researchers found that Memory T cells are “*distressingly slow learners,*” requiring “*several generations*” of intensive stimulation to make a lasting impression on T cells “*No vaccine trial to date has been able to produce significant numbers of memory T lymphocytes...*”

NATURAL IMMUNE RESPONSE IS PRIMARY

The Pasteur Institute observed that “98% of the immune responses triggered at the early stages of infection are non-specific. These non-specific responses had been observed following different infections by viruses, bacteria, parasites and fungi.” Thus the innate or natural immune system affords 98% of vital early response to an infectious agent, while the adaptive or memory-based response that vaccination seeks to stimulate represents only 2% of early response.

Pasteur Institute Press Release – Towards new vaccination strategies based on ‘non specific immunity’; August 1, 2000.

CONCERNS ON ADMINISTERING MULTIPLE VACCINES

- ▶ Recent studies reveal that vaccine antigens & adjuvants which cross the blood-brain barrier, cause secretion of cytokines & chemokines. The release of cytokines causes:
 - ▶ Confusion
 - ▶ Language difficulties
 - ▶ Disorientation
 - ▶ Seizures
 - ▶ Memory problems
 - ▶ Somnolence
 - ▶ Irritability & combativeness
 - ▶ Mood alterations
 - ▶ Difficulty concentrating
 - ▶ Varied behavioral problems
- ▶ As well, microglia respond by releasing large quantities of glutamate & quinolinic acid, which are destructive to brain cells & their connective processes.

CORRUPT TO THE CORE

“Vaccine induced adverse reactions, including autism, diabetes, cancer, allergies, & various neurological disorders continue to mount & more so where vaccines are used the most. For all these reasons I refer to vaccines as ‘cluster bombs,’ which when injected explode in all parts of one’s body & knock out some of the most critical organs & tissues.”

Chopra S. (Communication Sept. 9, 2011)

HPV VACCINE GARDASIL

ADVERSE EVENTS

Reported Vaccine Induced Disorders Include:

- ✓ Blood Clots in Heart, Lungs & Legs;
- ✓ Brain & Spinal Cord Inflammation;
- ✓ Loss of Spinal Cord Function;
- ✓ Guillain-Barré Syndrome;
- ✓ Demyelination;
- ✓ Psychotic Disorders;
- ✓ Cognitive Disorders;
- ✓ Facial Palsy;
- ✓ Encephalitis; &
- ✓ Death.

YOUNG WOMEN NOW DEAD AFTER GARDASIL

PERTUSSIS VACCINE & *SUDDEN INFANT DEATH SYNDROME*

2/3 of 103 infants had been vaccinated with pertussis prior to death, of which 6.5% died within 12 hours; 13% within 24 hours; 26% within 3 days; 37%, 61% & 70% within 1, 2, & 3 weeks respectively. Source: Torch W., Neurology - 32 (4 – Pt. 2) A, 1982, pp. 169-170.

SUDDEN INFANT DEATH SYNDROME

Dawn Richardson & Karin Schumacher at the Austin, Texas (USA) morgue examined autopsy reports of infants listed as SIDS, & they established that a high number of SIDS deaths clustered at 2, 4, & 6 months, precisely when infants are routinely vaccinated. Medical examiners never even considered asking about observable relationship between the SIDS deaths & the timing of their vaccinations. (There are an estimated 2,300 SIDS fatalities annually in United States.)

SHAKEN BABY SYNDROME

VERDICT IS IN

An estimated 1,500 cases of Shaken Baby Syndrome (SBS) occurs annually in the United States. SBS diagnosis has led to indictments against, & imprisonment of parents & baby sitters, especially in the USA & UK causing much injustice & suffering for accused individuals & their families. Brain (subdural & subarachnoid) & retinal hemorrhages, retinal detachments, rib & other bone fractures are pathognomic. However, compelling evidence published in major medical journals shows that it is compliance with governmental vaccine schedules for infants that precipitate retinal hemorrhages & detachments, & increased fragility of bones. The evidence is compelling, most SBS cases actually originate with infant Vaccination.

SHAKEN BABY SYNDROME VERDICT IS IN

As the infant's body attempts to quickly neutralize the varied vaccine toxins, vital reserves of Vitamin C are depleted & these serious disorders & deaths (25% of cases die) occur due to Acute Scurvy. Pediatricians who routinely inject babies in the first months of life with multiple vaccines within short time spans, become both the accusers of the innocent, as well as the guilty party who are never investigated, prosecuted, or brought to justice. Of course the guilt & complicity goes beyond pediatricians to drug manufacturers, legislators, public sector policy-makers, & controlled media propagandists.

While in Australia, I Kalokerinos. Upon Superintendent at he found that the increased to 50%

visited with Dr. Archie becoming Medical Collarenebri Hospital infant death rate had & would likely grow far

worse. After investigation he discovered that this massive increase in deaths was due to recent intensification of vaccination campaigns among Aboriginals. Although the literature warns sick or malnourished children should not be vaccinated, this was ignored. Any parent's desire to not vaccinate their infants or small children was also ignored.

In his words: "I saw [medical teams] chasing them on foot, &...in Landrovers... grabbing the kids & vaccinating them. Given their malnourished status, it is a wonder that any kid survived... not that the death rate had just doubled."

He went on to virtually eliminate Vaccine adverse events & deaths by administering large doses of Vitamin C, intramuscularly or intravenously, at time of Vaccination. Unbelievably, this life-saving measure led govt. officials to become increasingly hostile toward him.

In the 1990s my sister (an RN) while visiting the Cherokee Reservation Hospital in N. Carolina, interviewed a Native American U.S. Indian Health Service officer who'd served for many years in five or six different Native American hospitals, mostly in the Western U.S. She asked him -*Based upon your experience, what do you consider to be the most serious health problem confronting Native Americans.* Expecting to hear diabetes or alcohol related issues, he instead soberly indicated that it was *vaccine damage to infants & children.* He enumerated that in hospital after hospital he was shocked to see such large numbers of children exhibiting severe neurological disorders & other grave conditions due to vaccination.

FEDERAL COURT INJUNCTION SOUGHT TO PREVENT FORCED VACCINATION IN USA

A photograph of two men in dark suits and ties walking on a paved path. The man in the foreground is looking towards the camera, while the man behind him is looking slightly to the side. They are walking past a light-colored stone wall and a modern building in the background.

A Legal Case filed in U.S. Federal Court by G. Glaser & R. Flores in December of 2020 exhaustively documents & proves that unvaccinated Americans enjoy exponentially better health than the vaccinated. Specifically, 1,248% (i.e. over 12 times) better health for unvaccinated adults & 1,099% (11 times) better health for unvaccinated children.

These litigators have utilized thousands of pages of incontestable scientific, as well as epidemiological survey evidence, which has a 99% confidence interval.

<https://cdn.website-editor.net/fbd2f2a8b1b04bdba97a21e6e5d356aa/files/uploaded/Pilot%2520Survey%2520Data%2520Graphs%2520--%2520October%25202020%2520%25283%2529.pdf>

LONGEVITY & PRISTINE HEALTH - HUNZA

In the remote Karakoram Mountains are the people of Hunza, who have an average lifespan of 100, with many reaching over 120 years. Without commercial drugs or vaccines, they've enjoyed freedom from all forms of degenerative & infectious disease.

Due to mineral-rich top-soils, babies are born with their teeth fully developed. In the early 20th century, Sir Robert McCarrison, Major General in the British Medical Corps, investigated these remote people. He was astounded at their pristine health & immunity. *“These people are unsurpassed ...in perfection of physique; they are long lived, vigorous in youth & age, capable of great endurance & enjoy a remarkable freedom from disease in general.”*

PROPAGATING SIN

Mahatma Gandhi was dismayed & alarmed when speaking of Western medicine's claims that its armamentarium of drugs & vaccines could "*absolve*" human beings from giving due respect & obedience to nature's laws as the means of safeguarding & sustaining their personal health.

"I was at one time a great lover of the medical profession... I no longer hold that opinion... Doctors have almost unhinged us.... [with their] institutions for propagating sin. Men take less care of their bodies & immorality increases."

WAR ON DISEASE OR HUMANITY?

Warring with disease using toxic drugs & vaccines is an attempt to abrogate the immutable laws of cause & effect as divinely established in our physical being. These measures inescapably deaden the conscience, & make war upon the human constitution. *“Congratulations, with our magic potions, you can now with impunity & immunity violate the sacred laws of life & health - as undoubtedly our vaccines protect & drugs cure!”*

1918-19 Flu Pandemic – Using natural therapies Dr. Herbert Shelton treated roughly 1,000 cases in New York City without losing one patient. In contrast, the majority of patients being treated with toxic-allopathic drugs died.

THE RESTORATIVE ROLE OF INFECTIOUS DISEASE PROCESSES

The most prolific American woman non-fiction writer (5,000 articles & 40 books) - translated into more than 140 languages was Ellen White.

She affirmed “Let physicians teach the people that restorative power is not in drugs, but in nature. Disease is an effort of nature to free the system from conditions that result from a violation of the laws of health. In case of sickness, the cause should be ascertained. Unhealthful conditions should be changed, wrong habits corrected. Then nature is to be assisted in her effort to expel impurities & to re-establish right conditions in the system.”

PRISTINE HEALTH IS HUMANITY'S BIRTHRIGHT

The only lawful strategy for avoiding all forms of disease is to intelligently walk in the laws of health, & avoid crudely invasive medical drugging & vaccines. My three children (now adults) over a 15 year period never once experienced any illness of any kind, not even a common cold, or the flu. I know that they were directly exposed at least to measles, & to infectious hepatitis. They were on a whole food plant-based diet, & we lived on a 5 acre country property, with our own garden & fruit trees. They also never once swallowed a drug, or received a vaccine.

END OF PART 1
